**About us**

By **providing clean drinking water and food security**, we have transformed the lives of over 20,000 rural families, **empowering them to build a more promising future.**

### Mission

To empower communities by promoting comprehensive actions that enhance access to water, food security, and sustainability, building the capacities of women, men, and children for a more sustainable future.

### Vision

To be a leading civil society organization in Mexico, driving social innovation that empowers communities to become self-sufficient, organized, and resilient for a sustainable future.

### Our cause

To transform the lives of women, men, and children by promoting community-based social innovation that increases access to water, food security, and income generation, fostering a more sustainable future.

A board of directors **dedicated to transforming lives.**  
Each member brings their expertise and passion to  
guarantee that every drop of water and **every seed sown in  
our communities flourishes.**

**Alejandro Ríos Ruíz**

Authorized Representative

**Kenia Montiel Pimentel**

Chair of the Board

**Andrea Esquivel Salinas**

Board-certified pediatrician and IBCLC  
with a Master's in Clinical Nutrition,  
specializing in breastfeeding and child  
development.

**Marta Leticia Sierra Morales**

Qualified Chemist and Bacteriologist,  
Perinatal Educator, Doula, and  
experienced Storyteller, currently  
leading La Leche League Hidalgo.

**Yatzin Montiel Vargas**

Research-oriented archaeologist with  
expertise in conservation, educational  
technology, and cultural  
management, experienced in data  
analysis and community engagement.

**Imelda Vázquez Barrera**

Mother and social entrepreneur,  
dedicated to empowering women  
artisans and promoting local  
production through TGO and Arenal.

A **multidisciplinary team** of experts with the experience and knowledge necessary to **overcome the most complex community development challenges.**

**Making a difference**

**By working side-by-side with communities,** we empower them to create lasting change. Our customized approach is recognized and **supported by the FAO - UN.**

### Construyendo Agua

Ensure families have access to water.

### Construyendo Alimentación

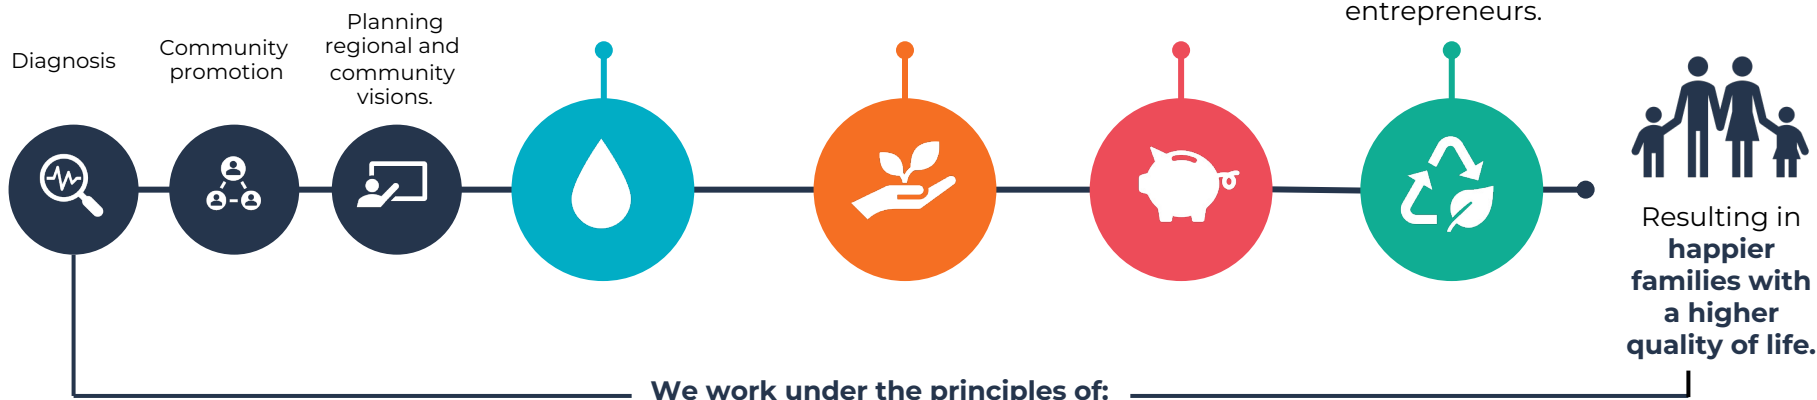

Provide food security for families.

### Construyendo Productividad

Promote income generation among families.

### Construyendo Escuela Verde

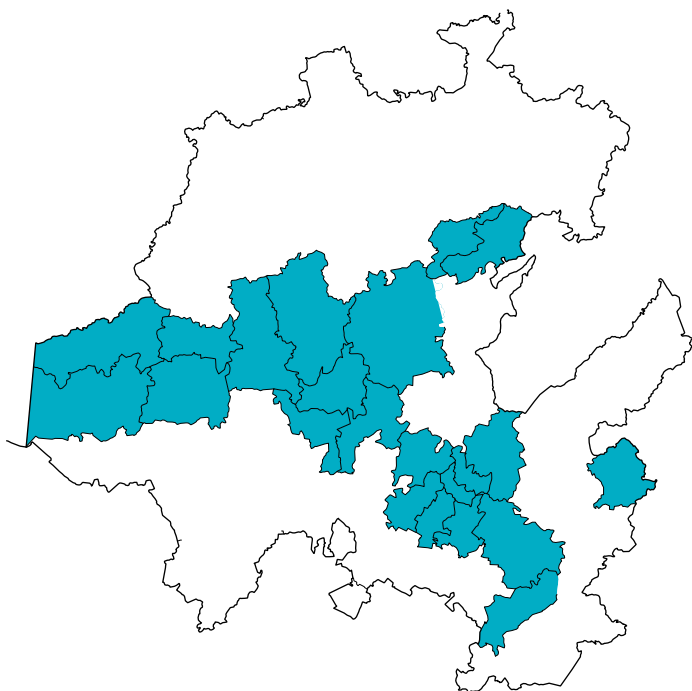

Promote environmental education and foster future entrepreneurs.

Equity and inclusion • Local identity and culture • Shared responsibility • Sustainability • Capacity building

Imagine a future where **every child in Hidalgo has access to clean water and nutritious food.** Construyendo Esperanzas is making this a reality, one child at a time.

**Our initiatives**

**We are making a difference in the lives of rural and indigenous communities in Hidalgo by improving access to clean water, ensuring food security, and fostering sustainable development.**

**Construyendo**  
Agua

**Transforming the lives of rural communities** by providing innovative solutions **for clean water access**, including rainwater harvesting and greywater treatment.

**Construyendo**  
Alimentación

**Providing every family with access to nutritious food** to support their well-being and development.

**Construyendo**  
Productividad

**Empowering communities** to foster sustainable development **through skills development and economic growth**.

**Escuela Verde**

Building a sustainable future: **Educating new generations to protect the environment and create a healthier planet.**

**Our partnerships**

By partnering with national and international organizations,  
we are able to reach more vulnerable people and create a  
greater impact.

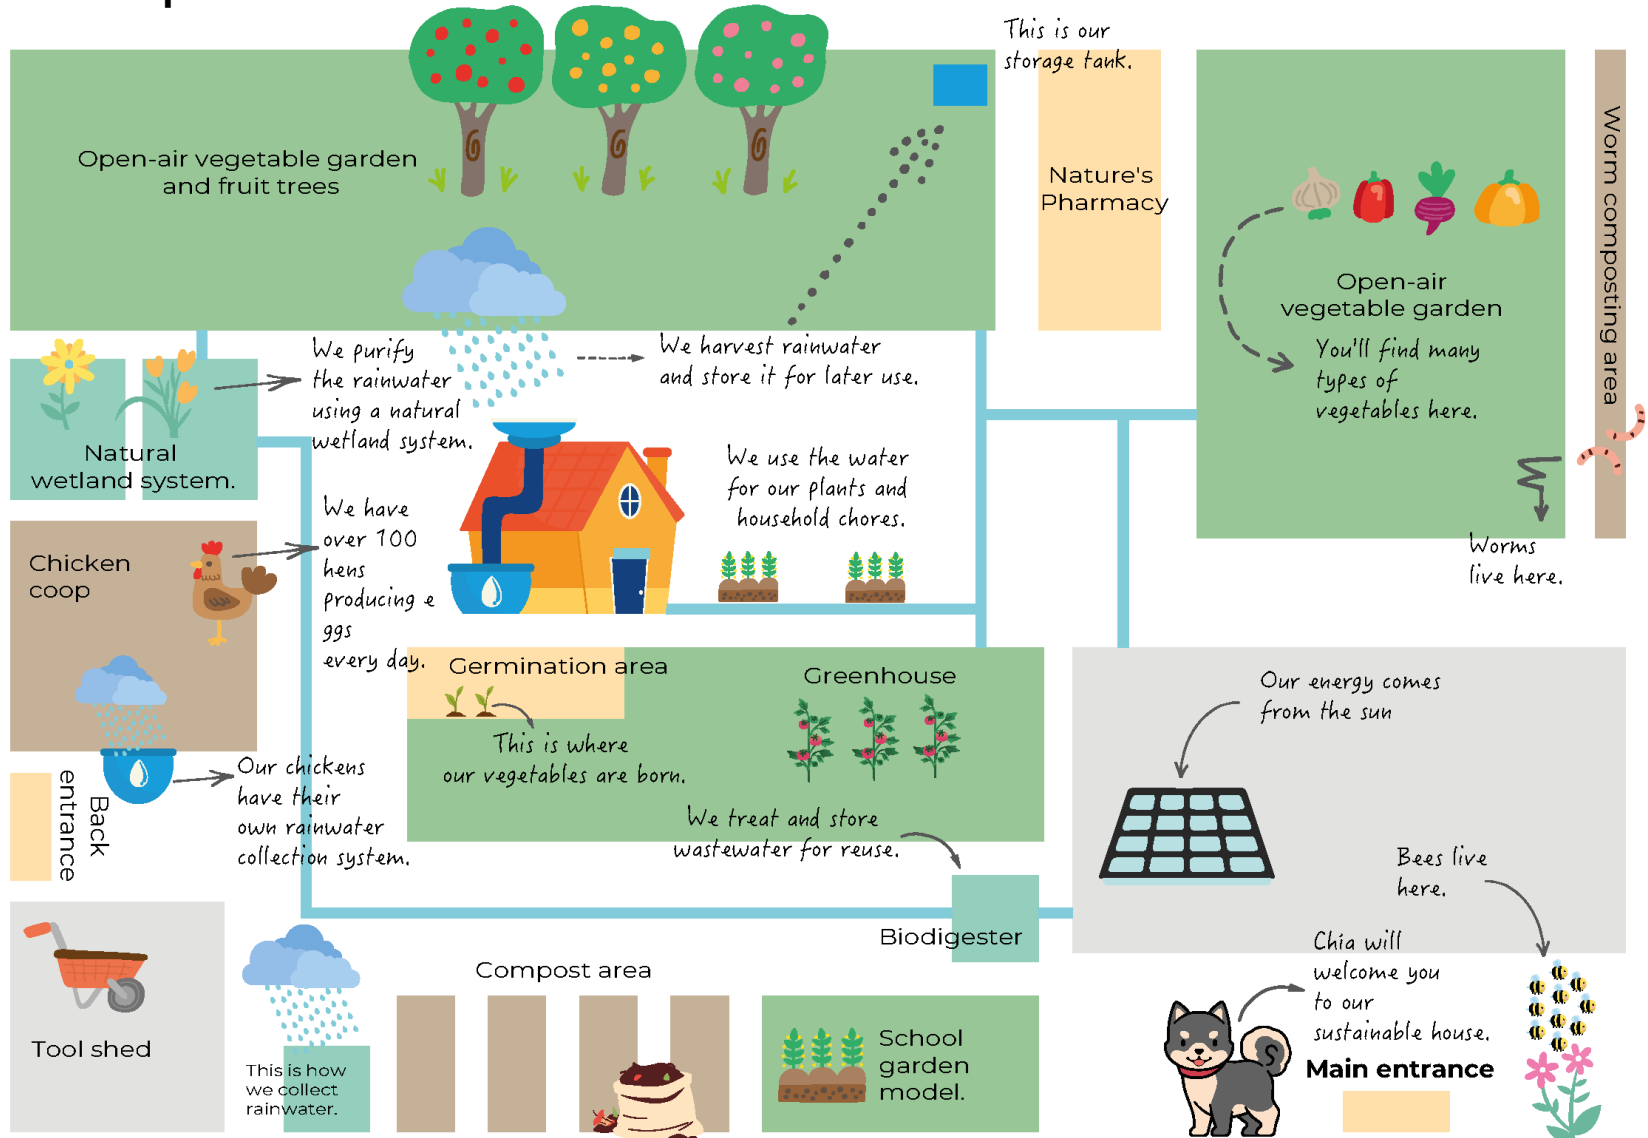

**Our Sustainable Home**

Our Sustainable Home is a **pioneering educational project that empowers communities to live sustainably.** We show **that it's possible to live comfortably while protecting our planet.**

Our Sustainable Home **is a living classroom** nestled in nature, teaching us **how to live in harmony with the environment**. Here, you can explore:
